us facts demonstrated. I am now very much interested in the subject of polled vs horned cat tle, with my mind fully made up in favor of the farmer. I think there can be no question of doubt that horns will have to go: but the process of change will of necessity be slow. Every reason demands their expulsion, with none for retaining them, viz: safety to mankind as well as to the brutes themselves; comfort to the cattle and their ers in pens, barns and especially in shipping; by not being afraid of each other they will fatten faster; grown animals become like calves, lie down close together, will eat to gether and as many water from the same trough as can get to it.

The most human way to get rid of horns is to breed them off; and there are several species of hornless cattle that are very fine. I be lieve the polled Augus to be as fine a breed animal as the Durham or Hereford and quite as good or bet ter for milk; and much hardier than either; especially adapted to our mountain ranges.

But for one I cannot wait for the slow process of breeding off, the horns, so I have already dehorned

Beecher's Adies. Henry Ward Beecher in one of his latest sermons said : "To all the young that are coming into the church I say be young be gay, be hopeful, be mirthful. If God has given you a sparkling disposition, thank God and cultivate it. Miss Grace Clark is visiting friends and relatives at Marlinton.

Rev. D. S. Sydenstricker has been in poor health for some time. He has labored faithfully for his congregation at this place for years, without any vacation, and we all all think that he richly deserves one now and should spend it in complete rest from his duties.

A False Christ.

The little town of Rockford, Ill is the seat of a man who pretends to be Christ returned to the earth.

He has auburn hair and beard and taking advantage of a resem blance to the conventional picture of Jesus he declares that though his body is new and does not show the wounds into which doubting Thomas thrust his fingers, his coun tenance is the same. "I am the Christ. I am the perfect man. I am God. I possess all of the divine attributes, and am sinless. This is my second advent on earth, and the time is not far off when I shall make such maniand and tens of thousands. I have have done so for those who believe. "My spirit passes into thee," she said to him as she the whole being. Go forth pure and sinless, the only son of God spiritually begotten of me. Thou shalt bring all nations to worship thee."

For Collecting Funds for our ual transformation of his body he was to become Christ, physicaly as well as spiritually. Not long ago he assembled his followers in Chicago and told them that the transformation was complete and that he was now the Christ.

Schweinfurth's following is remarkable. Already the sect has branches in Chicago, Minneapolis, Kansas City, Leavenworth; Louis ville, Cincinnati and a number of small towns. 'His followers are so overcome with this infatuation that they hold their property subject to their idol, and it is stated that not less than \$50,000 worth of property around Rockford and \$100,000 in Chicago has been deeded to him. An old man named Spencer Weldon has given Schweinfurth a magnificent farm of 800 acres, four miles south of Rockford, and there the pretender lives in princely style. He has put \$20,000 worth of improvements on the place and lives in a large, elegantly furnished mansion, surrounded with beautiful lawns, drives, lowers and all the appointments of luxury. His dress is modern, and his clothing is stylish and elegant, and his deportment is that of a gentleman. His language is a careful imitation of Christ's, and he is said to be calm, quiet and polite, with no evidence of insanity in his actions.

pected to go and receive instructions with the personal influence of the man they worship. Some of these pilgrims Schweinfurth sends into a field of labor, others to their homes, and on others especially favored he confers the degree of "angel," and takes them into his household. About sixty five ofthese angels-fifty women and fifteen men-now live in the mansion with their leader. This state of affairs aroused suspicion, and some Chicago gentlemen, whose families had been broken up by the conversion of their wives and daughters, sent a female member of a Chicago Methodist church to investigate the matter. She was to enter the mansion, ingratiate herself in the pretender's favor, and, if possible, discover grounds for a criminal prosecution. The woman went and was converted, returning to Chicago a zealous believer.

The pretender has taken a remarkable hold upon people of apparent intelligence among them several ministers. A former Congregational minister, who is an alumnus of Yale and Andover, is pastor of the Chicago branch, and the leading spirit in Kansas city is the daughter of a Presbyterian minister. The members are very zealous and bold in proselyting, going into homes, prayer meetings and minisannounced that she had the spirit ters' meetings where they watch of Christ as no other mortal ever their opportunity to rise up and an- June 20 4-w

This recalls the beginning of the same region. In some respects Schweinfurth appears to be the superior of Joseph Smith, and his-influence over his followers, according to accounts, is not less remarkable.

Such a spectacle in this age of schools shows that education does not relieve the world of fauaticism. This sect grew up in a region of schools, and counts among its adherents many persons of education and apparent intelligence. So far no charge of immoral conduct has been lodged against them, and the "angels" in Schweinfurth's "heaven," so far as the world knows, have done nothing to prove that they are imps. About the only thing that seems to do justice to the case is the remark of Puck in the Mid. summer Night's Dream, "What fools these mortals be."

A happy party of fifty or more persons had assembled to witness the nuptials of two worthy young people, Mr. John L. McNeill and Miss Louella Forrest Snyder.

An interesting feature was the presence of a number of sunbrowned stalwart young men from the neighboring harvest fields, in their work day dress.

About 3 p. m. the marriage vows were pronounced by Wm. T. Price. Miss Cora Coombs, and Annie Carter were in waiting as Brides maids attended by Messrs Lee Carter and Silas Barlow.

The young people presented a fine appearance on the floor.

A very excellent dinner was served, and it was greatly enjoyed by the numerous and orderly guests. Mr. Coombs deserves, grateful

# Sullivan and Kilrain

The prize fight between John L Sulliyan, of Boston, and Jake Kilrain, of Baltimore, which has had a world-wide advertisement, for the championship of the world, came off 100 miles from New Orleans on the eighth. The ring was pitched on a private estate called Richburg. The fight commenced at 10 o'clock and lasted until 1-three hours and 75 rounds. Sullivan showed himself the better man throughout the engagement Indeed, had Kilrain stood up fairly, the fight would not have lasted half hour. As it was, there were 75 rounds fought, in the last of which Kilrain's man threw up the sponge and gave up the fight. Kilrain was knocked down square 28 times—Sullivan not once. Sullivan proved himself the better man as a wrestler, a boxer, as a tactician, and for endurance. In fact, it was no match at all. The fight was ostensibly for \$20,000 and the championship of the world. Large amounts of money changed hands. Neither of the men wore seriously injured. Both were bruised considerably-Kilrain the severest, with a broken nose

WASHINGTON, December, 9.-Senator Vance is in dead earnest in his fight on the humbug civil service law. Miss Gammon was becomingly dressed in an olive green Duchess satin, prettily trimmed in brouze green bugle braid.

Miss Ligon's costume was a dark blue silk, extensively ornamented with bronze bugle ornaments,

The groom and groomsmen wore the conventional black dress suits. After partaking an excellent breakfast the bridal party proceed-

a splendid reception was held. The bride is well known in society circles as a most charming and be congratulated in winning such a fair and worthy bride.

The groom is one of Pocahontas' most promising young men. The majority he attained at the recent election to the office of Prosecuting Attorney, is an evidence how he is honored and esteemed in this law county.

May their life be as bright calm and serence as their wedding day. and may prosperity and happiness ever attend them.

We would judge from the above article that the Independent's correspondent has never been in Pocahontas county nor does he know anything about it whatever. He says Marlinton is the junction of the C. & O. and W. Va. & Pittsburg railroads. We are extremely sorry that when he says this he is quite largely mistaken. Not a mile of either of the roads he mentions nor any other railroad, except a few tram roads for lumber purposes, has ever been built in the county. Our nearest point to any railroad station is about 30 miles. Marlinton is the proposed junction of the two roads, when they are built, which we hope will not be far off, but me are also sorry to say that railroad corporatians are very, very, very priviledg. ed, only building their roads when it suits them and when it suits

Our County Court on yesterday submitted to a vote of the citizens of this County the question of the relocation of the County Seat from this town to Marlinton.

are such as to command the thoughttul attention of all our people.

In presenting the petitions to the which our citizens concede was emand if they found they were not signed by, or did not emanate from the responsible and substancial citiment on the subject by withdrawing them.

After an adjournment for the purpose of examining the petitions, under the proposition of McGraw, the Court decided, that the petition repthe election.

Court House be removed; and also filed the bond of that Company, un der its corporate seal, with sureties to pay the sum \$5,000, if the remov al be made at the election ordered by the Court.

These are the propositions submitted and many of our citizens regard them as fair and generous.

A proposition was made by Messrs. McGraw and Whitescarver to pay the \$5,000 in eash, but as there was no provision of law for the payment of the fund to the Sheriff of the County, and a special receiver would be necessary who would be e titled to 5 per cent. commission for holding the fund. The Court elected to accept the bond, which with the sureties thereto, it approved assufficient.

This action of the Court now presents the question to the voters of the County and it is for them to say whether, under the conditions pro posed, they want the County seat at Huntersville or at Marlinton. The Court further by an order entered of record also settled the question of the costs of the new County buildings, in the event of the removal, by declaring that it should not exceed the sum of \$15 000, andthat this sum should be extended through a period of several years, so as to make the future development of the County aid in its payment.

The voters of the County now have the question before them and it is for them to decide; and THE TIMES which is published for the benefit of the people of the whole County, and no particular faction, but having friends on both sides of this question, as we have said before, opensits columns for any proper communications upon the sub-

# The Removal Question.

GREEN BANK, W.Va., Oct. 26th. ED. TIMES: Much has been paid by the agitators of our County seat removal matter, but they have never made it apporent why said removal should be made, and when I attempt to give but a few of many reasons why our County seat should not be removed I answer the wishes of ? to 3 of the citizens of this the Green Bank District.

First-We have one of the best \$5,000 to us—the contracters declaring they lost \$3,000 on the job of constructing it, which virtually declares that our jail is worth \$8,000.

Second-We have been to \$8,000 modate the upper end of the county and an appropriation of about \$1,000 to make a road around the ton and to aid in it offer a lot and \$5,000 (and such men do not buy pigs in pokes or offer \$5,000, unless by it they intend to make many times that amount) and many who take in the \$5,000 like a money box gapping for a half pence.

Now I mean to utter the sentiment of many, many sturdy and far-seeing citizens when I say to you my fellow tax-payers, come to this subject with sense and soberness. This is an important matter, and when men say that our Co. Court has declared that the proposed court house shall cost but \$15,000,

gast, report of com'rs to deide land, remember, that court commissioners do not hold office like supreme judges, and the Court that now knows as may soon know us no more. Who knows what life's uncertainty or political diversion may bring fourth.

When we vote to move the county seat we are forging the fetters that will bind us to stand to this matter through evil as well as through good report, and when the dye is once cast the yoke is upon us -we are in for all time let the cost be small or large.

Take the Counts estimate of the Court house cost-\$10,000 falling to as, \$3,000 to remove the jail would put us in \$13,000, withthe \$8,000 lost on the bridge which would make us realize a loss of \$21,000-which is the lowest possible estimate and we muct expect it to be very much more, and, why should we give \$21,-000 for the sake of a lot and \$5,000 in cash? We feel feel grateful to foreigners who mean by railroads&c. to develope our Co., but for us to give \$25,000 or \$30,000 to aid in forlegn speculation it does

To those in the lower end of the Co., we would say that you may suppose that getting our Court house 6 miles lower down from us is stimu- buying has been done with a view of offering you the best qualities at latingusto fight this matte,r but up- the best figures on our honor this 6 miles figures as a very insignificant or small item in Jacob Taylor &c. vs. Margaret this matter, but let us appeal to you the faction that would put such a tax mon us as this removal would

entail. Some cry out railroad, railroad, and for the life of Court-house-removal agitators they cannot show that this matter has anything to do with the railroad, or a railroad with this county seat removal. The whole matter is plain, and a "wayfaring man though a fool may not err, therein" if he will listen to plain practical reasoning. I do not mean by the above to say that the men who are favoring this removal are fools by any means-no, they are

men who should know better. Trusting that I have not been an intruder, I am yours,

PRUNELLA.

At his home in Hillsboro, Poca hontas county, West Virginia, on the 14th day of Feb. 1889, Joseph Beard, in the 79th year of his age.

In the death of Joseph Beard Pocahontas county loses one of her oldest and most respected citizens, whose long and eventful life is honorably and inseprably identified with the history of the county. He was born in Greenbrier county, W Va. on the 20th day of Sept., 1810. and removed to Pocahontas county in the year 1857. Early in life be was united in marriage to Mattie Jordan, daughter of John Jordan, Esq., with whom he happily lived till the day of his death, and who now survives him, an aged and lonely widow. As the issue of this marriage were born three children; one son; John J. Beard, the present Clerk of the Courts of Pocahontas county, and two daughters, Mrs. Isaac McNeel, and Mrs. Wm. L McNeel, now deceased.

In the year 1883 Mr. Beard made a profession of religion and con nected himself with the Methodist Episcopal Church. In 1844 when the division came, Joseph Beard without hesitation cast his lot with the M. E. Church, South.

His life was marked with unus ual energy and activity, but in no enterprise was this more manifest than in his labors for his Church. He was not a religious enthusiast, nor specially demonstrative, but unceasingly gave those better and more substantial evidences of a firm and abiding faith in Christ and his church. In the prosecution church work of every kind, he was always ready to do his part, and never slow to suggest to others their duty when the occasion demanded. He was a man of firm convictions and decided opinions, yet ever maintained a liberal respect for the belief of others. There never lived place in the make up of his characwas thrown near a fense, by means ter. Indeed his habit of telling the candor in commending the good and reproving evil sometimes falsely led those who were not well acquainted with him to think him in some matters a harsh man, but he was not so; underneath the surface of solid belief and rigid candor was hidden a heart as tender as the heart of a child, the sympathies of which responded to the gentlest touch. His generosity and hospitality were proverbial, the friend and the stranger were ever his welcome guests, nor did he ever weary in sharing the comforts of his home with as many as chose to partake of them. He was possessed of a peculiarly happy nature; disappointment nor calamity could never subdue for any time his cheerful spirit. It was his rule to always do his best and to be satisfied with

the result. He will long and widely be missed. He was affectionate and indulgent toward his kindred, and true in his friendship. He was a good and useful citizen, ever ready to contribute in any manner to the good of society and of his country. But most of all will be missed by his church, whose interests were first in his heart. His life is ended, but its influence will still be felt, and truly may it be said of him that

# WASHINGTON LETTER.

WASHINGTON, May 24th .- "Harrison has a weak back bone," said a republican Senator, and it is constantly growing weaker. There is every indication that we are to have a repetitiod of the worse feat ministrations." This language was garded as being very friendly to the administration, and there is no doubt that he is, but he was asked by a republican friend his opinion of the President and he gave it without reserve. And the known facts in a number of cases bear the Senators statement as to a weak back bone out. For instance he wants to put his old law partner Attorney General Miller in the Supreme Court bench, but owing to a vigorous protest from the Indiana republicans, who want Judge Woods of that State appointed, he does nothing. Again: In the early days of the administration John Wanamaker selected a business man of Philadelphia to be Postmaster at that city, and Mr. Harrison lacked the nerve to make the appointment. And again : Some time age John Sherman was promised that Ex-Cougressman Hart, of Ohio, should be appointed Solicitor. General, Hart was telegraphed to and told to come on and get the appointment. Quay made a big row accusing Sherman of lying etc., and A Clay county preacher has been intimating that the administration might go to jericho, for all he cared. Mail Sub Contracting. The mail route between place and Traveler's Repose. has been sub-contracted for by John F. Wanless and C. O. W. Sharp, at about \$800. How's that? a mail 60 miles a day, every day in the year except Sunday, over mountains, streams and everything else for \$800.

We can't understand why men that claim to have good judgment will let a man from another State come in here and tell us what we shall work for; and take his mail routes off his hands at about half the actual cost that it will take to

It looks as though some men will have a mail route if they have to pay some one to get it. Why is it? ### Notes By the Way.

It is a matter far beyond thanksgiving and praise to witness the people hasten to repair the effects of the recent flood.

During the whole spring season. there seemed to be unusual industry all over the county, clearing land repairing fence, and improving roadways.

Taken for everything there is no region on the face of the earth, that surpasses West Virginia, and Pocalontas may be made equal to any county in the state, for all material comforts. Patient industry is sure of its reward in a region like this.

AN INTERESTING SUNDAY SCHOOL There is a flourishing Sunday school, at New Hope school house on Brown's Creek, near Hunters ville, under the Joint management of Mr. James W. Warwick and W.

T. Moore. On a recent Sabbath afternoon the writer witnessed a scene there. not to be met with in any other Sabbath school in the world.

The first Sabbath School even taught in West Virginia, and for that matter, anywhere west of the Alleghanies was conducted by Mrs. Mary Warwick in her old age.

Though she was so infirm, that when seated, she could not arise from her chair without assistance yet she would have her servants to place her on a horse, and she would ride four miles to a log school house located near what is now called the "Jerry Friel cabin" on Jacob Sharp's property, where she met her Sunday School. She was theonly teacher, and would open her school at 8 or 9 o'clock and continue teaching until one or two in the afternoon then she would go to William Sharp's, rest awhile, take dinner aud thereupon return to her home at Clover Lick.

One of her favorite scholars was little Lizzie Sharp, now known and much esteemed by many of your readers, as good old Aunt Bettie McGlaughlin verging close to ninety years of age. She was at the Sunday School the afternoon referred to, and seemed interested in all that was going on. / Mr. Warwick is a great, grand son, of her old Teacher, and Aunt Betsy says she can see her old Teacher's eye in Jimmy Warwick's head. It was a touching coincidence, that two such persons, should meet in sabbath school, after seventy-five years should have passed away, and is if histane significance in the literature of Sunday school.

has rarely seen a grave more beautifully finished up. It was sodded with freshly cut turf, and adorned evergreens.

The beautiful testimonies bore of her confidence in the love cheerful alacrity with which our and power of Jesus to save, are of the most consoling character.

Thinking of her. one is most touchingly reminded of these lines as beautifully appropriate

"She sleeps in the Valley so sweet, About her the green willows wave, We planted the rose at her feet, To bloom and decay o'er her grav She sleeps in the valley so sweet, No sound e'er disturbs her repose; So quiet in this calm retreat She rests safe, secure from life's woe

How calmly she rested in God; "To thy arms my Savior I come Come quickly, come quickly, O Lord And welcome thy wanderer home. She sleeps in the Valley so sweet, Her spirit has taken its flight, Her form is but dust neath our feet While she is an angel of light.

### W. T. P. The Heroine of the Flood.

If the valley of Conemangh has ts heroes it also has its heroines.

The story of one woman's sublime courage and unselfishness at a su preme moment of peril makes a bright page in the gloomy record of the Johnstown calamity.

Mrs. Ogle, the manager of the Western Union Telegraph office at Johnstown, stood by her key to the last. She was notified time and again that certain death awaited ber if she did not seek safety in flight. But the brave little woman thought of the thousands of people in the valley below and stuck to her post, sending out message after message of warning.

Suddenly a deafening roar filled the air, and a black wave, mountain high, could be seen rolling down upon the doomed city.

The pale-faced woman gave one look and dashed the tears from her

"This is my last message!" the key ticked out to to the operator at

There was no time to ad another word. The mad torrent struck the building and an instant later the lifeless heroine of the flood was washed through the raging waters, onward through the rocky mountain passes, and downward to the smiling plains below.

The brayest are the tenderest, and the tenderest are the bravest.

# The Floods of the Future.

The Canemaugh valley disaster must not be viewed simply as a calamity. It is a warning.

When the boats navigate Pennsylvania avenue in Washington, and carp invade the houses of that city, we see the shadows of coming events-something even worse than the Johnstown horror.

We have more than once pointed out in these columns the probable consequences of the floods that will visit this country in future. The destruction of our forests will make the cloud-burt as familiar to us as the tornado is to the awellers on our western plains. Ven Bebber, in his work on "The Influence of Forest Growth on Climate," says: "The old experience that the destruction of woods accentuates climate extremes, and more especially enhance the danger of floods, has Also a nice line of Nay, it receives calamitour confirmation in the disasters which, in the South Tyrol, for example, recur so frequently, and which it is vainly sought to prevent by artificial works."

We are energetically setting in motion the very machinery that must necessarily increase the area and the destructive power of these tremendous floods.

We hear of the cloud-burst in the south of France after that region was stripped of its with a cross, and tastefully arranged timber-cloud-bars's which turn garlands and wreathes of roses and cow-paths into ragging torrents and sweep away honses, cattle and human beings. But all this, we say is in France. The awful warning comes nearer and in a deadlier shape, from time to time, until we have its breathless culmination and climax at Johnstown.

The thoughtful observerver who has watched these events, studied their lessons, and looked ahead into the future, can come to but one conclusion. A century hence Mayaulay's New Zealander may not be here to shake his wooly head over our ruins, but the scientific and progressive American of that day will have many strange chapters of history to relate. He will tell his children the story of our scores of dead cities that went down in the black night of a mighty deluge. He will describe the destruction of Washington, Cincinnati, Louisville, St. Louis and New Orleans. In Georgia and Tennessee he will name the cities of—but this comes too near home to be calmly discussed, and predictions would not be relished by any of us.

It is enough to say that a century hence, when the intelligent American of that day takes a glance backward, he will bitterly denounce our criminal waste and neglect in the matter of forestry, and it will be a mystery in his eyes that we allowed so many warnings to pass unheeded, and rushed on to our dooin. -Atlanta Constitution.

Bear Killed with a Penknife. On Friday night last a yearling bear was killed by two boys on Lit tle mountain in Meadow Bluff dis triet. John A. Hall, aged 17, son of Thos. A. Hall, and Mont Black iged 12, were coon hunting when their dogs treed the bear. They in duced the bear to come down by firing one shot at it from a gun loaded with No. 5 shot, which be youd putting out one eye, did no damage. The dogs then tackled it, and the boys rushed in with an axe, but could not use it effectively when young Hall had recourse to his pen. knife. After several lucky passes he succeded in dispatching it. Young Hall was slightly bitten on the fingers in the fight, but sustained no other damage. Greenbrier Independent.

Virginia's Debt Settled.

It is announced that the Alcoft Committee and the Virginia Debt Commission have finally agreed up on a basis of settlement which will doubtless be rettified and confirmed by the bond-holders and the State Legislature. The basis of the settlement is that the Commonwealth shall issue in lieu of all outstanding claims, unfunded and in default, \$19,000,000 in bonds having one hundred years to run and bearing interest at 2 per cent., per annum for ten years and 3 per cent., per annum for ninety years.

This does not effect the \$6,000, 000 in bonds funded under the Rid no equal. dleberger act and in the hands of the people or the securities held by schools and colleges. All other se curities, however, are brought into the \$19,000,000 pool, and the start is to be made with a clean score.

This basis of settlement seems to be entirely favorable to the State and is received with great satisfaction by the people. Certificates will be issued to the bond holders for what is claimed to be West Virgin ja's share of Virginia's debt.

Is John Sherman better than Foraker? We do not believe that he is. He has done more mischief to the country and the democratic party than Foraker ever can do. He ouce aided and was conspicions in one of the blackest political crimes in our history, the theft of the Presidency. If we were a democratic member of the Ohio Legislature and our vote was needed for Foraker, that he might defeat Sherman, Foraker would get it. Although he is the greatest political blatherskite of the age .- Wetzel Democrat.

The elections being over reduc tions of wages in the protected industries are again in order. Lately the great iron firm of Jones & Laughlin, of Pittsburgh, pasted a notice reducing the pay of 500 men from \$1.50 to \$1.35 a day. Jones was chairman of the Republican National Committee during the Blaine campaign in 1884, and contributed to the McKinley campaign fund in Ohlo this year.

From the vital statistics of the large cities in this country it appears that at least 10,000 children starve to death every year.

RE-LOCATION QUESTION AT LAST SETTLED.

The question as to where our Court House shall be located, is at last finally settled by the people.

As the result shows that the will o over three fifths of our people is that Marlinton shall have the Court House, it becomes us as citizens of a republic to bow with deference before the will of the people thus emphatically expressed.

In discussing the issues, through our columns, we have endeavored to be conservative, but we admit that it was with regret that we real ized that the County Seat must seek a more central and convenient location to conform to the wish of the large majority of the citizens of our County as the vote shows that the desire for a change of location was general throughout the County.

The returns show that the voters were about all at the polls. The result was not occasioned by local prejudice or factional bitterness. The election was a fair, open, hon est expression of the will of the voters. Now let us lay aside all feeling except good-will, and let each the attempt will be made in certain and every one do all he can, by word and deed, to make our county selection makes certain the nominaseat what has been so appropriate ly styled, "the peoples' town-the one of the gentleman who have principal town of our County."

Our County Court will be convened on next Saturday, Dec. 12th, scheme. There is not the slightest to declare the result, and we will thing to base such a conclusion up thus nave this question finally settled, and leaving old ruts we start on the highway to general prosper.

As soon as we can make necess ary arrangements, we will move our who favor Mr. Cleveland, Govenor paper to the new city and enlarge it to an 8 col. folio or twice the size it is now, and we trust that the lib eral aid of our people, which has heretofore been so generously extended to us, will still be ours, and to the home of our adoption.

# High Tariff Does not Hurt the Rich.

There is one significant and instructive paragraph in the Associated Press evnopsis of opinious cabled from Paris of the effect of the McKinley bill on our trade with France. A Mr Vanbergen, "who annually exports to the United States textile goods to the value of 35,000,000 francs," is quoted as saying: "The new tariff has not greatly injured our trade in high-class goods. Our business in cheapergoods has diminished considerably." In other words, as the Sun and tariff reformers generally have insisted, is the people of moderate means, or the actually poor, neither of whom can afford to pay fancy prices, who are injuriously affected by an undu-ly high tariff. Being unable to pay, they go without or buy an inferior article produced at a lower price in this country. In either case, they are made to bear the whole weight of the tariff iniquity. # A Novel Railroad Case.

W. A. Richerson, who keeps a grocery store at Buena . Vista, and his clerk, L.-J. Campbell, have been arrested on a somewhat novel charge. Some days ago the passenger train on the Norfork and Western Railroad ran into and killed a bull belonging to Richetson near the Beuna Vista Junction. Richerson put in a claim for damages, but the Norfolk and Western authorities, thinking the case somewhat suspicious, sent Detective Furly there to investigate it. Early claims to have obtained a confession from Campbell to the effect that acting under Richerson's directions, he had tied the bull on the track for the purpose of having it killed in order to get damages. There has been a good deal of nonsense written about the election of Speaker shutting out a promi nent candidate for the democratic Presidential nomination. The Na ti nal convention only, has authority to settle that question.

If Jerry Simpson does not catch the Speaker's eye as often as he wishes, it will not be because of his location, as he has secured a seat in the very front row. The meeting of the executive committee of the National Democratic Committee here early this week was an important event for the party and a very pleasant event for those who attended it. The time for holding the convention will probably be about the first week in July, but the place is as yet a matter of doubt,

He is not that kind of a man; and unless the Govenor of Texas shall call a special session of the legislature of that State, which shall elect Mr. Mills Senator, to fill the unexpected term of Senator Reagan, there is every probability that Mr. Mills will serve out his term in the House, although it will. not be surprising if he should decline to again assume the responsibilities and hard work of chairman

### The Camden Road.

Thomas P. Grasty, writing to the Manufactor's Record from Parkersburg, where he has been stopping over after a trip over the route of Camden's new line, gives many partienlars of interest to this section A map is given with Pittsburg at one end of the line and Covington at the other. Following is the part of the letter referring particularly to this section:

"Apropos of new towns, one of the most inviting locations that I know of is the point on the Greenbrier river where the West Virginia and Pittsburg meets the Chesapeake and Ohio. To this point from the Gauley river, a distance of only 34 miles, the final surveys have been made and the road is ready to be let to contract. The sight of the new town is now known as Marlin's Bottom, and a vote has been ordered in Pocahontas county on the question of moving the county seat thither. I did not see the place, but am told it is a beautiful location.

Besides being on the outskirts of a great timber and coal field, it is adjacent to what is supposed to be good from ore, in both the Oriskany and Clinton formations of the Alleghany mountains. I am informed moreover, that the Chesapeake and Ohio Company are now having a portion of this alleged ore region ex ploted under the direction of Mr. Langdon, the geologist. "But that is another story."

The junction at Marlinton is the result of an agreement between the manager of the West Virginia and Pittsburg Railroad and that of the Chesapeake and Ohio. The latter road has about 25 miles yet to build from its Warm Spring extension, and the West Virginia and Pittsburg as has been stated; 34 m les besides what is now ready for track laying in order to complete the connection from Pittsburg in Pennsyivania, through the centre of West Virginia to Covington. Much of this inter vening country, now a wilderness will so soon as the connection is made, become the scene of industri al developements on a scale so sel dom witnessed in this country.

I asked Mr. Camden about the road up Potts Creek to open the 60,000 acres of strictly mineral lands owned by a syndicate of which he is a member. "That," he replied wil be an independent road with equa advantage to the Chesapeake and Ohio and the West Virginia and Pittsburg. It will be built in the near future, and will be about 3 miles long, from Covington on to ward the divide between the Pott creek and Big Stony, which latte runs through Norfolk and Wester teritory. This area has been ex plored by experts who have explor ed and opened the ore body in mor than 50 places, which show that th slopes on either side, as well as th valley itself, contain a persisten bed of Oriskany ore from 20 to 50 fee in thickness. Most of this ore wi be made into pig iron by, founaces to be erected along the road on the syndicate's property, and some will be shipped to furnaces in Virginia. A large portion of the pig iron production on Potts creek will be ship. ped to Pittsburg. A perfectly satisfaction traffic arrangement has been made with the Chesapeake and Olio people, which is to apply alike to West Virginia and Pittsburg and cash, when taken away. the proposed Potts Creek Railroad."

Summing up the result of my reconnoisance in the territory of the Camden system, I am convinced that the value of the trific it will create is beyond computation. Unlike most new roadbeds this one is thoroughly ballasted and in first class condition."

HOW A COWARD FEELS.

It is a humiliating confession to make, but, physically speaking, I am an arrant coward! And yet, so far as formation of body goes, I ought not to fear to cope with any ordinary being of danger.

I am young, tall, have a chest measurement of about thirty-nine clined an increase of his salary from inches, and am, I believe, thoroughly muscular.

How I have tried to overcome this feeling af cowardice, but in vain! than I am now receiving." At the first sign of my being involved in danger I turn deadly pale, my heart beats wildly, and I am seized with such a fit of trembling that my legs almost-give way beneath me. I am almost rendered nearly speech less for my voice quavers to such an extent that I can scarcely articulate words.

And my friends actually want me to join the army!

"No," said I to myself, with a sickly smile. "The pen is mightier than the sword, so Fli stick to the pen."

What a noble soldier I should have made! I am sure that, in the event of being "ordered to the front," I should have deserted at the first opportunity .- "A Coward" in Lou

A SINGULAR SALE.

When Shylock bargained for a The county levey was laid allow paid for keeping property levied "pound of flesh," it was not recording the attorney for the common ppon -horse for 24 hours 61 cents, ed what he intended to do with it. But a sale of a very similar commodity recently took place for humanitarian reasons. A young widow, nurse in a hospital for children in San Francisco, recently sold forty five square inches of her skin for one hundred dollars. A strip of skin nine by five inches was cut from her body by surgeons and was grafted on to the leg of a railway mail clerk who was injured in an accident. His right leg was badly burned and would not heat, and as a last resort skin grafting was proposed. A fellow-clerk of the sufferer first offered to supply the skin, but when he learned how much was needed he backed out. The nurse, having three children and needing money, offered to farnish the necessary amount of skin. She submitted bravely to the opperation, which was performed successfully, and was paid one hundred dollars for her sacrifice. Victor Hugo in Les Miserables appeals touchingly to our sympathies with the relation of poor Fantine who sold all her belongs, her beautiful hair, and finally her pearly teeth, which she half pulled, to support her unfortuneate little one, but this beorine in real life, who sells her living skin for her children's sake, merits a respectful admiration as well as deep sympathy.

Removal of County Seat.

CLOVER LICK, Nov. 5th, 1891, ED. TIMES: Considering the ques tion of removal of the County seat to Marlinton, it is pertinent to ask 1st. Have we to build a new C

2nd. If so, should it be at Marlinton.

3rd. What the cost.

I think when we consider our present needs, and the development of which we seem to be on the eve, there can be but one answer to the question of hullding, and in faand prospective centre of the population, and is especially convenient to the two districts which pay tax (without individual distinction) on

It will be remembered that several years ago a petition for removal was gotten up before there was any talk of R. R's, and would have been submitted but for a technical in formality.

With regard to cost, I do not conceive there will be any great differ ence in the cost wherever built, and if it is conceded that we have to build soon, the money would have to be provided any way. But when we consider the offer of 5000 dollars Mrs. Preston Clark was called the scales are at once turned in favor of Marlinton.

> This County pays tax on 1,800, 000 dollars, and with the new assessment it is expected that the wild lands, held especially by non residents (foreigners, if you will) will be increased in price. Making the aggregate property more, the excess falling on non-residents. It will be seen at once that a tax of about 70 cents on the hundred dollars will raise the amount specified by the commissioners, viz: 15,000 dollars, which the citizens will have to pay. And right here I will say that they can be prevented by legal means if thought best, from laying any greater tax. And this tax may not be all laid in any one year. So every voter can see at once, for how much he will be taxed to keep the county abreast of the progress that is going on around.

E W. reminds us to act with "sense and soberness," and straightway proceeds to appeal to passion and prejudice and bring matters which have no bearing on the ques-

If to benefit ourselves we thereby benefit others (even "foreigners") what is it but prejudice would prevent. And in adding the cost of the bridge that was and the bridge that is, to our losses is he not begging the question, establishing a precedent for constructive election of McKinley as govenor of damages that might return to plague. Are we to bind ourselves so to the acts or operations of the past as to be hindred in the race that is set before us, this would be to stop all progress.

It is not expected or desired that Huntersville should cease to exists, but that it should partake of the general prosperity, the bridge being of more importance than ever

The bridge cost about \$3,000, the jail \$4,000, the removal of which would cost say \$1,000. This would leave \$4,000 of the gift added to the \$15,000 tax and ought to build a good C. H. besides the C. H. and lot belongs to the County and not the heirs, and can be sold if desira-

This is a despassionate statement and is entitled to consideration and its defects made known. Brethren who should have the good of the whole County at heart should avoid in this discussion any personality Respectfully, scientiously. JOHN LIGON.

WASHINGTON LETTER.

From our regular correspondent.

Dec.

WASHINGTON, D. C., Nov. 6th-The iollification of jubilant democrats is giving this town almost as rosy a hue as it had a year ago, when the returns came in from the Congressional elections, and "Well, yes; three out of four will do very well," has become a sort of democratic is continually making democratic countersign. It refers, of course, to the election of three democratic govenors out of the four states in which govenors were elected. Every train brings prominent demo. It would have been almost a micavor of the site at Marlinton it can crafs, and one and all they are of cle had we carried Ohio, and the be said that it is nearer the present the same opinion, that by this time days of miracles are past." next year a democratic President will have been elected. Representative Mills said : "In Massachu cetts it was a square fight, a contest 125,000 dollars more property than over a principle, and the doctrine of the balance of the County, and in the demecracy was endorsed by the answer to E. W., I will say that it people who believe that corparty is is the people of these two districts the exponent of sound ideas and the who are especially moving in this correct theories of government. There is nothing in Ohio to cause discouragement. though I confess that I believed that Campbell would be re-ested. Still Ohio is a republican state. A democratic victory New York is a grrnd one, but it is best not to be too sanguine over carrying that state next year. It is him. always uncompfortably close, and doubtful in Presidential years. Yet on a square test I am confident that democracy is stronger in that State than republicanism. Yet we amust overlook no precaution to insure victory in 1892. We must in the scriptural phrase, be as wise as serpents and harmless as doves. I we obey this injunction we ought to win not only in New York next year, but throughout the nation." Mr. Mills has opened headquarters in one of the uptown hotels for the Speakership campaign, and the other candidates will follow suit in a few days, as there is but little more than three weeks left for them

It has leaked out through the gos sip of those high up in official socie ty, that Mr. and Mrs. Blaine are making no social engagements of any kind, more than four or five weeks ahead. The reason for this is that they will, in case of the Secleave for a warmer climate, where ad. they will spend the winter. Should Mr. Blaine's health or his inclimation lead him to leave Washington again for an indefinite period, it is not believed that he would retain the State portfolio. Indeed this plea of had health may be made his excuse for leaving the cabinet in order that he may become through his friends, an open condidate for the Presidential nomination of his party, as many believe he is certain to do inside of six months. The Ohio has brought a disturbing element into the calculations of both Blaine and Harrison. They know that if McKinley is desposed to be a candidate, and there are good ensons for believing he is, that he will go into the convention with a strong following. Of course press ure will be brought to bear on Mc-Kinley to have him agree to wait, but he may think that he has waited long enough.

Secretary Proctor continues to draw the salary of Secretary of War, although he has gone to Vermont, and they say around the department that he is not expected to re: turn until he comes to officially transfer the department to his successor, who has not been announced, although he has been selected.

Representative Bynum, of Indianna, is enthu-iastic over the election returns. Said he: "Three out of four isn't bad. It's just about what I thought it would be. I never thought the democrats could carry Ohio, which is a republican state so there is no reason for being down

cast over the news from thers. All in all the result of the elections is a great democratic victory which means success next year. It means that we shall have New York, New Jersey, Connecticut and Massachu setts in the east, and I should not be surprised if we carry Rhode Island and New Hampshire. Tariff reform votes in the eastern republican strongholds. I see no! cloud upon the democratic horizon. We could not have hoped for a brighter sky.

The decision of the U.S. District Court of California that the shipment of arms on the Itata was a perfectly proper commercial transaction, and That this Government had no right to interfere was very aupalatable to the administration, and the Attorney General has directed that an appeal be taken.

Mr. Harrison is quite modest. He. says that if the republicans in New York had stuck to national issues Fassett might have been elected. Secretary Tracy says be was defeatin a State Mre !owa is something to ed by the republicans who stayed November, 1891. be proud of. Flower's triumph in at home, but it looks very much to most people, as if he was defeated by the democrats who voted against Nov. 5 4t.
